

EUROPEAN SPERM·BANK

Founded in Copenhagen, Denmark, European Sperm Bank is dedicated to making a difference by helping woman and couples achieve pregnancy in a safe and secure environment. We are committed to selecting and providing the best sperm, ensuring the best service and tailoring individual solutions that fit you and your needs.

FUTURE SIBLINGS STORAGE

SIBLINGS FOR YOUR CHILD

With our storage programme you can ensure that your child has the possibility of a future sibling from the same donor – meaning that your child can have a genetic brother or sister.

The only thing you have to do is to let us know so we can reserve sperm from the same donor exclusively for you. We can store the donor's sperm for up to 10 years.

We recommend that you reserve your donor's sperm as soon as you become pregnant. If you wait too long, the donor may become unavailable due to the national restrictions and due to available number of straws.

We want you to feel happy and confident about your choice. Please do not hesitate to contact us by e-mail, chat or phone if you want to learn more about this opportunity.
